

PREP 1

I chose the title "Fruits Pattern" as my paper 2 question because I wanted to explore more exciting textures, colours and beauty about fruits as me who love to eat fruits. The pictures that I took are some that my mom bought and some from the fruit store. After that day I got this question, I asked my mom to bring me to the fruit store, my mom would volunteer to be my model in cutting fruits so that it makes the picture more interesting.
